THE NATIONAL HIGH SCHOOL SPACE CHALLENGE

Our Sponsors

STELLAR PLATINUM

Harris Corporation is a leading technology innovator, solving customers' toughest mission-critical challenges by providing solutions that connect, inform and protect. Harris supports government and commercial customers in more than 100 countries and has approximately \$6 billion in annual revenue. The company is organized into three business segments: Communication Systems, Electronic Systems and Space and Intelligence Systems. www.harris.com

Air Force Research Laboratory (AFRL) is the Air Force's only organization wholly dedicated to leading the discovery, development, and integration of warfighting technologies for our air, space and cyberspace forces. The STEM Outreach Office is charged with coordinating Air Force efforts to attract additional students to enter STEM fields. www.wfafb.af.mil/afrl

STELLAR GOLD

United Launch Alliance (ULA) is the nation's most experienced space launch company. ULA is harnessing the potential of space for humanity. We are dreamers inspired by possibilities not yet imagined, believers driven to broaden horizons, and doers combining technology, innovation, expertise, ingenuity and a commitment to the extraordinary. www.ulalaunch.com

STELLAR SILVER

Aerojet Rocketdyne Foundation, with a commitment to Science, Technology, Engineering, Math - Education, inspires students' excitement about STEM; improves STEM teaching, and supports STEM partnerships with schools and nonprofit organizations. www.aerojetrocketdyne.com/foundation

DynCorp International is a leading global services provider offering unique, tailored solutions for an ever-changing world. Built on over seven decades of experience as a trusted partner to commercial, government and military customers, DI provides sophisticated aviation, logistics, training, intelligence and operational solutions wherever we are needed. www.dyn-intl.com

SpaceX designs, manufactures and launches advanced rockets and spacecraft. The company was founded in 2002 to revolutionize space transportation, with the ultimate goal of enabling people to live on other planets. Today, SpaceX is advancing the boundaries of space technology through its Falcon launch vehicles and Dragon spacecraft. www.spacex.com

EDUCATIONAL ALLIANCE

Analytical Graphics, inc. (AGI) provides commercial software for designing, developing and operating missions within the space and national defense communities. AGI's Systems Tool Kit (STK) is a 2D and 3D modeling environment used by engineers, mission analysts, operators and decision-makers to model complex systems (such as aircraft, satellites, ground vehicles and their sensors). www.agi.com

The Space Foundation is a global, nonprofit leader in space awareness activities, educational programs that bring space into the classroom and major industry events. The foundation's mission is to advance space-related endeavors to inspire, enable and propel humanity. www.spacefoundation.org

Coyote Enterprises, Inc. (CEI) is a dedicated group of 300+ authors and editors creating books and interactive materials focused on providing space professionals, students and professors with the most up-to-date, integrated set of space technology references possible. www.spacetechnologyseries.com
