

STELLARXPLOREERS

SPACE STEM PROGRAM

A STEM program of the
Air & Space Forces Association

StellarXplorers is a STEM program of the Air & Space Forces Association, created to introduce and inspire high school and middle school students toward careers in space and other science, technology, engineering, and math disciplines critical to our nation's future.

The StellarXplorers National Space Design Competition is a space-focused competition that challenges teams of high school students to solve orbit determination, satellite design, and launch operations missions presented in a series of

online rounds. Teams must use the provided scenario (system mission and constraints) to provide the best solution to the real-world space design problem. Additionally, StellarXplorers offers summer camps to 6-12 grade students interested in space exploration and space design.

SPONSORSHIP OPPORTUNITIES

A StellarXplorers sponsorship offers a unique opportunity to grow your future workforce and support the push to improve STEM education for our nation's youth. StellarXplorers serves as a pipeline for talented individuals who are the future workforce of your industry, and you'll be positioned to communicate with thousands of bright students and volunteers on the importance and value of your organization.

Partner (\$5K+)	Ideal for small businesses or philanthropists. Logo on promotional materials.
Silver (\$25K+)	Partner benefits, plus logo on StellarXplorers website, promotional materials, coverage in monthly newsletter, sponsorship mention in AFA Annual Report, access to STLX Alumni Network, invitation to StellarXplorers National Finals, invitation to AFA STEM Luncheons held in conjunction with larger AFA conferences.
